ROLL.NO:2520090183

SECTION:11

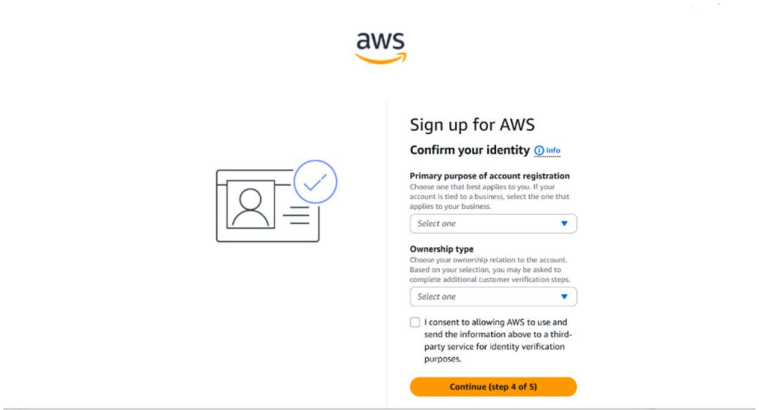

PRACTICAL -1

1.CREATING AN AWS ACCOUNT:

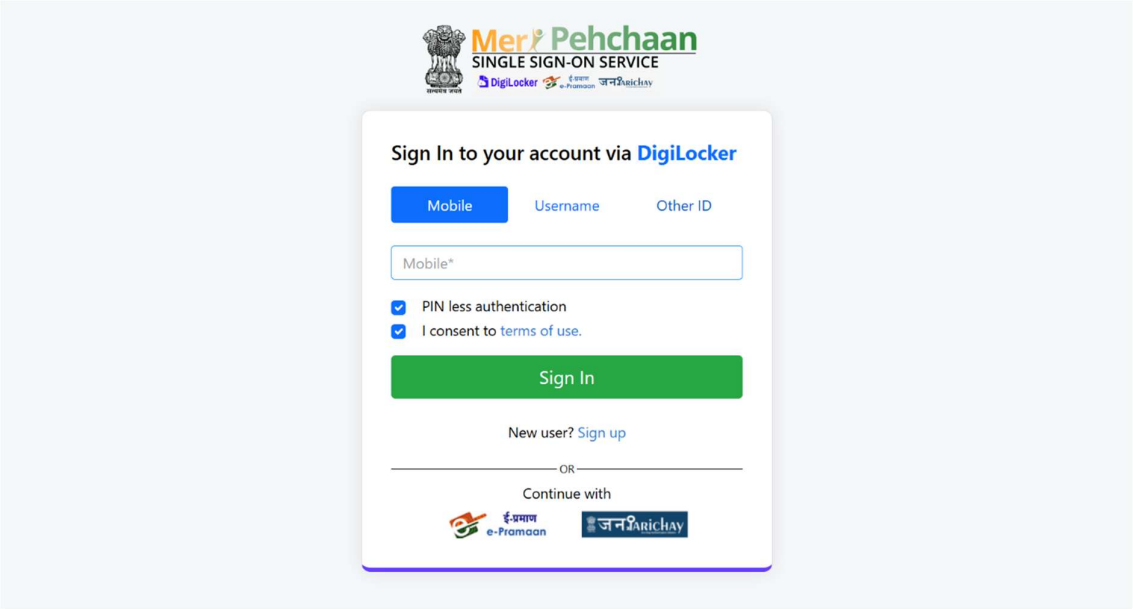

Start account registration—

Selected the AWS sign-up option and entered the required email address and AWS account name in the registration form.

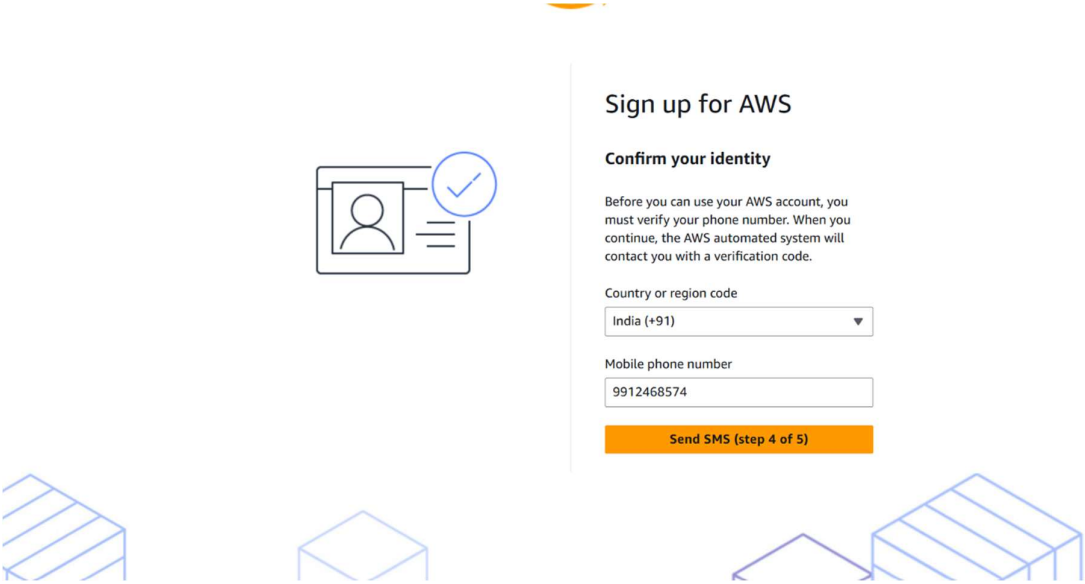

Complete the displayed identity verification

Followed the identity-verification page shown during the registration process and entered the requested details.

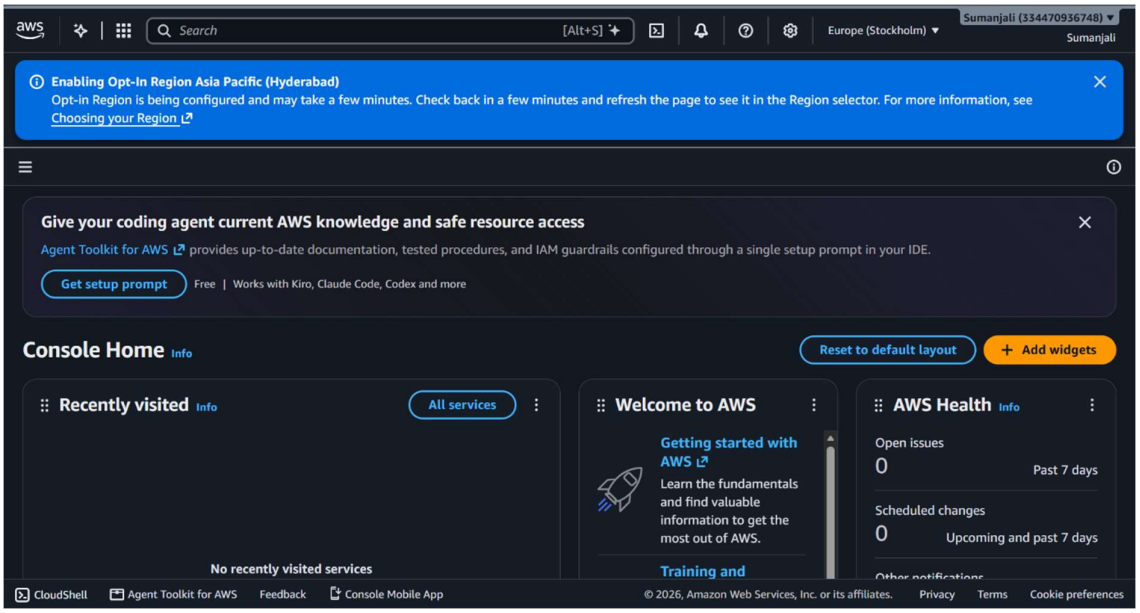

Enter account and contact details—

Selected the account type and filled in the required personal/contact information and address details in the registration form.

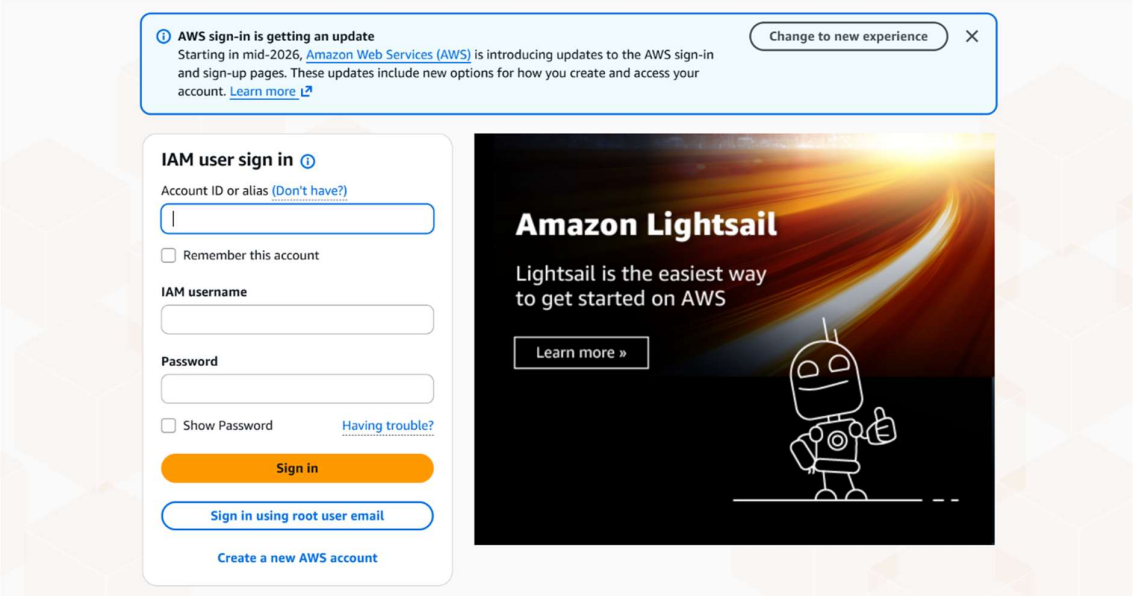

Verify the phone number

Entered the required phone number, requested the verification code, and followed the on-screen instructions to complete phone verification

2.APPLYING MULTIFACTOR AUTHENTICATION TO THE AWS ACCOUNT:

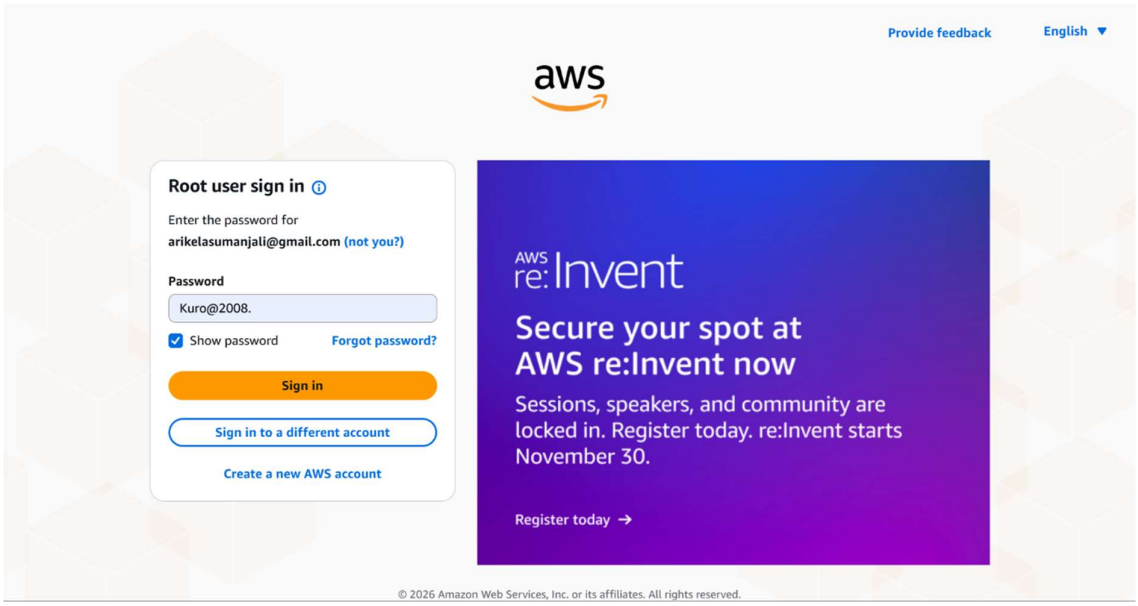

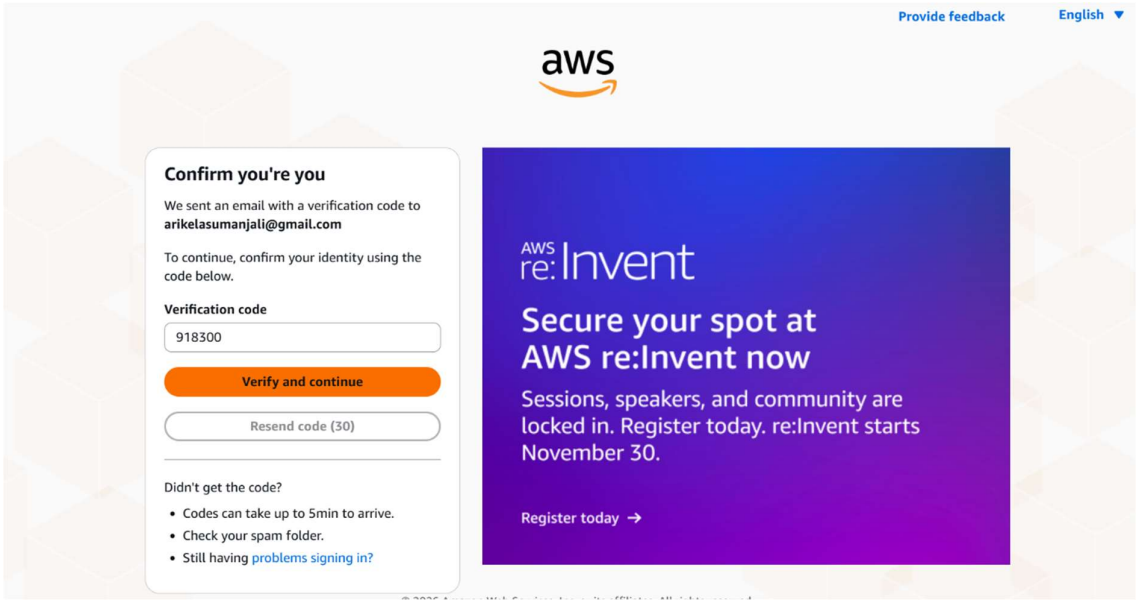

Open the AWS Management Console

After completing the registration steps, opened the AWS Management Console.

Enter the root-user email address

Selected Root user, entered the email address associated with the AWS account, and continued to the next sign-in stage.

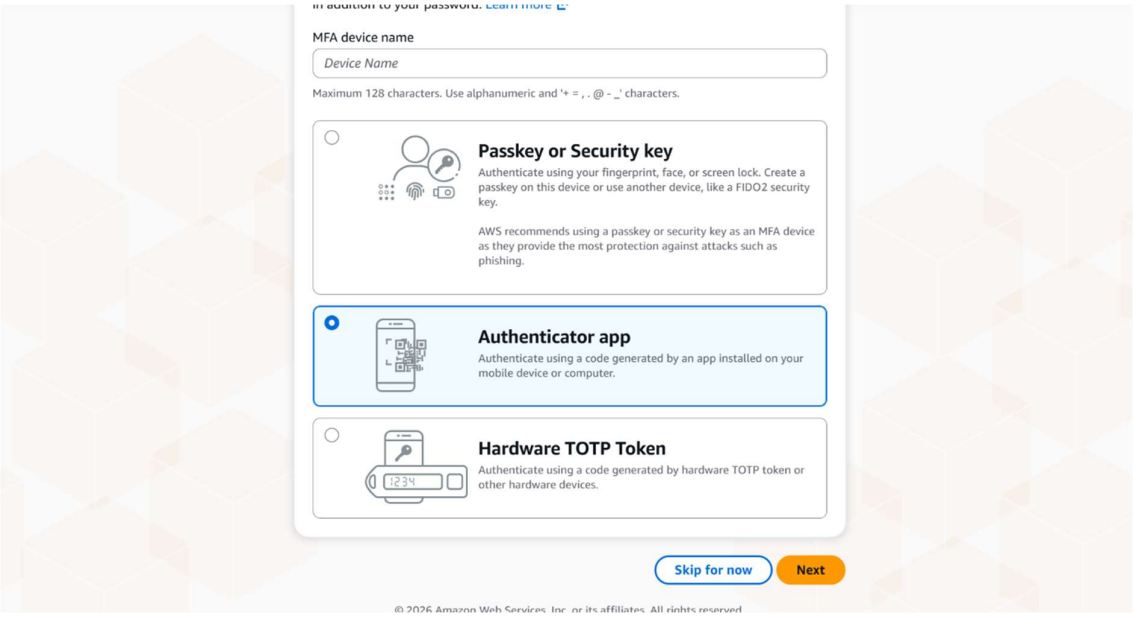

Choose an MFA method

Process: Opened the security settings for the AWS account and selected the option to assign a Multi-Factor Authentication (MFA) device. Chose the authenticator-app method.

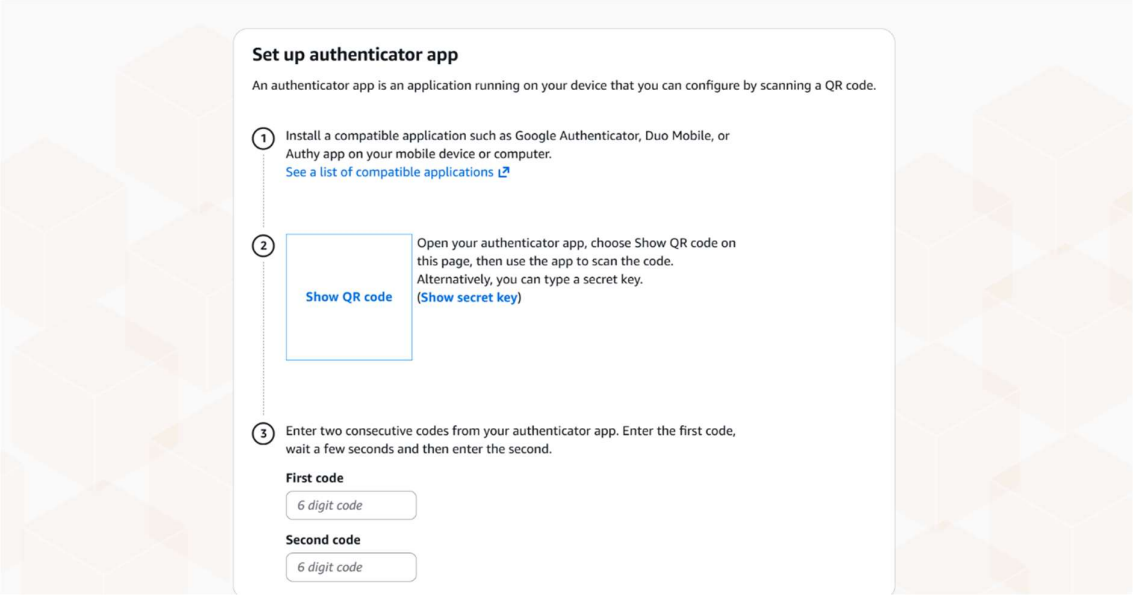

Choose an MFA method

Process: Opened the security settings for the AWS account and selected the option to assign a Multi-Factor Authentication (MFA) device. Chose the authenticator-app method.

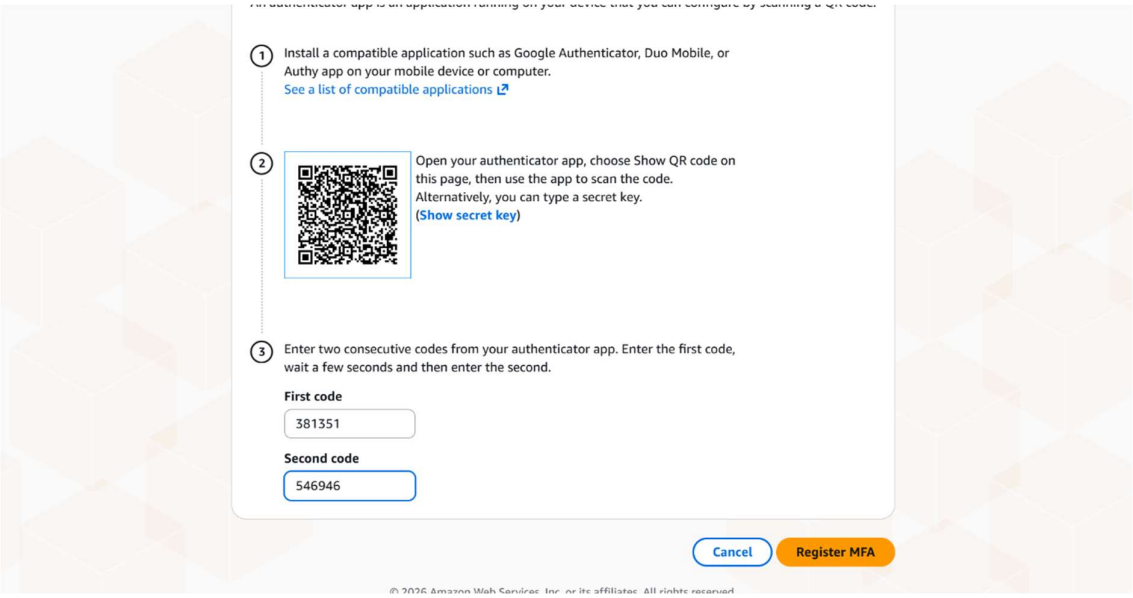

Choose an MFA method

Process: Opened the security settings for the AWS account and selected the option to assign a Multi-Factor Authentication (MFA) device. Chose the authenticator-app method.

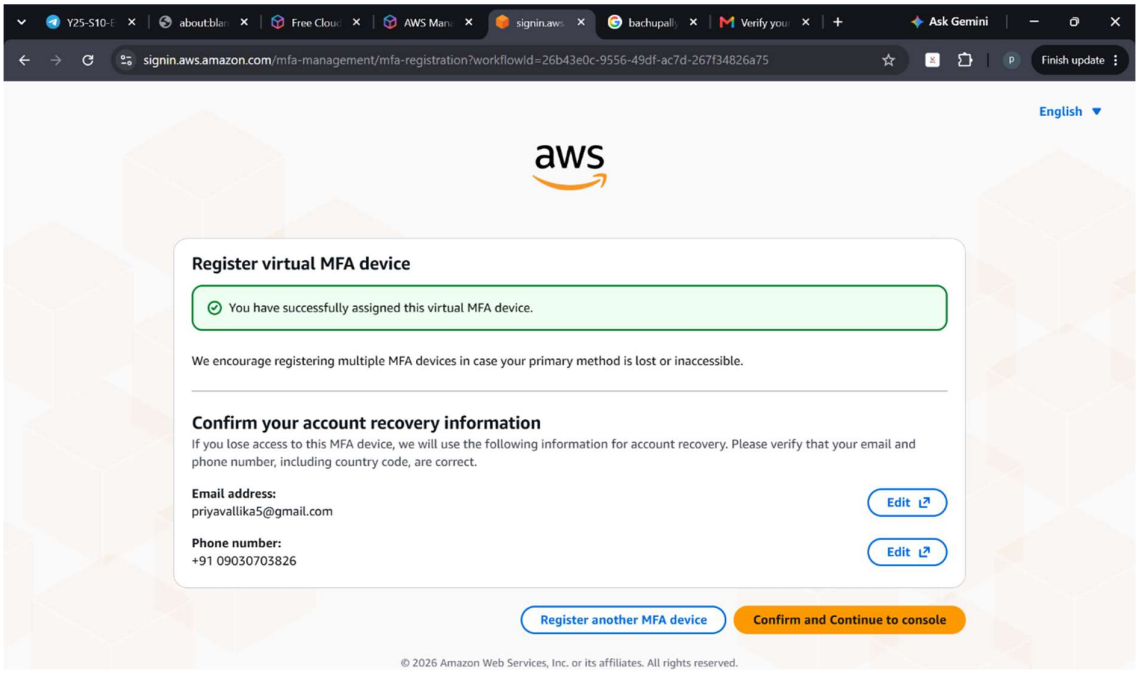

Scan the QR code and enter MFA codes

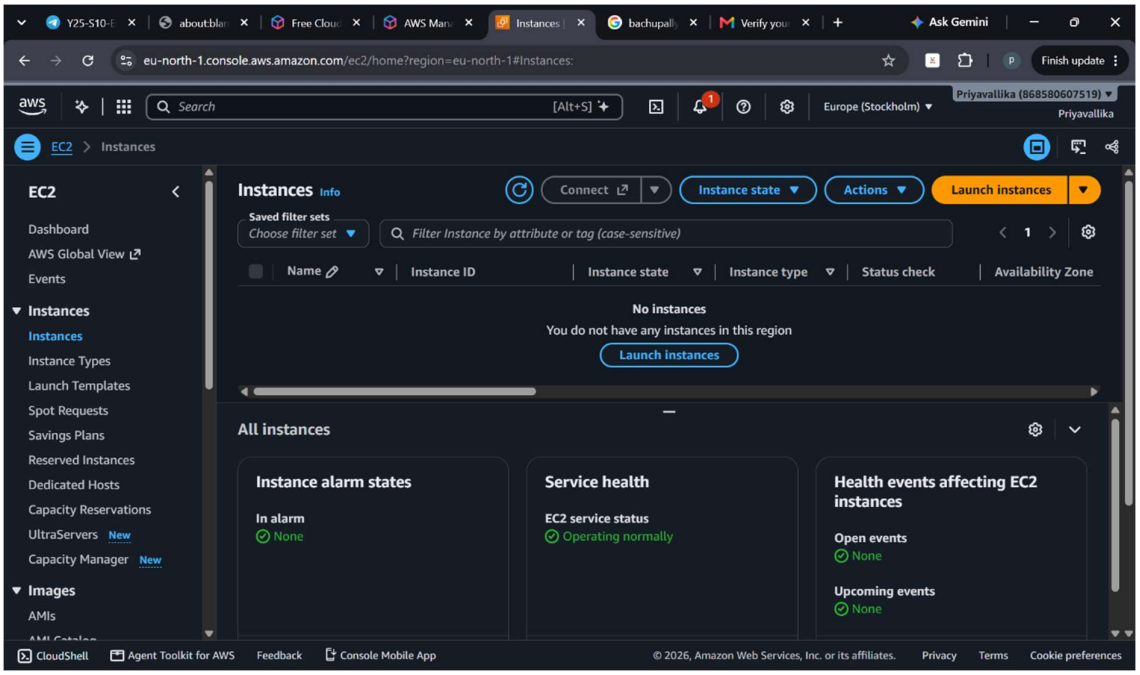

Process: Opened an authenticator application on a device, scanned the QR code displayed on the AWS page, and entered the requested verification codes generated by the application.

Verify access to the AWS Console

Process: Returned to the AWS Management Console after completing MFA registration.

Open the EC2 service

Process: From the AWS Management Console, navigated to the EC2 service.
